School Nurses Source Of Individualized Healthcare Plans Volume 1 Introduction

The School Nurse's Source Book of Individualized Healthcare Plans: A compendium of I.H.P.'s covering the most frequently encountered chronic and acute health issues

A comprehensive resource for the management of 66 chronic and acute conditions encountered daily by school nurses. This completely revised edition provides current pathophysiology; new conditions; a preliminary IHP to initiate immediate healthcare; sample 504 accommodations, EAPs, and EEPs - if condition warrants; and access to a new cloud-based software application that reduces the time it takes to create an IHP to minutes

The School Nurse's Source Book of Individualized Healthcare Plans: Issues and applications in school nursing practice

This is a concise reference providing quick access to information busy school nurses use every day to perform their duties competently and efficiently. It is written for nurses who are transitioning to a school setting, yet has much to offer more experienced school nurses. The second edition has been substantially revised to address the relevancy of the Affordable Care Act (ACA) and Healthy People Initiatives 2020 to school age children and their families, and incorporate information about the push towards formal evaluation of school nurses. It discusses new technology and the effects of head trauma and other sports-related injuries on academic performance. New information also includes the move towards standardized immunization, completely computerized health records, self-administered student medications, and prioritization of tasks for novice and substitute school nurses.

Individualized Healthcare Plans for the School Nurse

“Fast Facts for the School Nurse, Second Edition, will direct school nurses to the answers for many questions and to wiser counsel when a dilemma seems unsolvable. It is...authored by a school nurse of publicly acclaimed distinction who brings a lifetime of experience to these pages.” —Lucille A. Joel, EdD, RN, FAAN, Professor, College of Nursing Rutgers, The State University of New Jersey From the Foreword This concise reference provides quick access to information busy school nurses need every day to practice competently and efficiently. It is written for nurses who are transitioning to a school setting, yet has much to offer more experienced school nurses. The second edition has been substantially revised to address the Healthy People 2020 initiative to school-age children and their families, and to incorporate information about the push toward formal evaluation of school nurses. It discusses new technology and the effects of head trauma and other sports-related injuries on academic performance. New content, “Top 10 Timely Troublesome Topics for the School Nurse,” deals with issues such as getting substitutes and the prioritization of tasks for novice and substitute school nurses. Authored by a nurse with over 25 years of school nursing

experience, this consistently organized reference offers straightforward guidelines to a range of daily tasks and nursing responsibilities and provides clinical protocols for safe management of common childhood illnesses, accidents, and emergencies, along with legal and ethical considerations, documentation, high-risk areas in school nursing practice, and the requirements of both the Americans with Disabilities Act and the Individuals with Disabilities Education Act. Included are the delivery of culturally appropriate care, screening tools, wellness strategies, care plans for children with chronic disorders and special needs, adolescent sexuality, childhood obesity, drug use, and a food allergies “tool kit.” “Clinical Snapshots” throughout highlight critical information. The guide is useful as a supplemental textbook for nursing students studying for state or national certification exams. New to the Second Edition: “Top 10 Timely Troublesome Topics for the School Nurse” Correlations of the Healthy People 2020 initiative with school nurse practice Meaningful examples (“Clinical Snapshots”) relevant to the topic The effects of head trauma and other sports-related injuries on academic performance Academic requirements for school nursing in each state Prioritization of tasks for novice and substitute school nurses

Individualized Healthcare Plans for the School Nurse

Legal Issues in School Health Services offers a legal resource never before available for education and health professionals, and their legal advisors. All professionals involved in the development, implementation, and evaluation of school health services will find this an exceptional tool. This book addresses the spirit and letter of the laws, the related standards, the conflict between them, and how they affect the delivery of school health services in regular and special education. Special attention is given to pertinent issues for school administrators, school attorneys, and school nurses, in order to foster school practices that are safe and effective. Designed as a guide and reference work, this book is written by 15 highly-credentialed nurses, attorneys, and educators and offers detailed discussions of the legal challenges that exist in the 21st century. KEY FEATURES School nursing practice, standards, and performance issues Risk management strategies for school administrators, school boards, and attorneys Multi-disciplinary approaches in ethico-legal problem solving Collaborative approaches in promoting student learning and success Financial, special education, record confidentiality, and future genetic challenges In-depth legal references, citations, and research, plus a comprehensive glossary and table of federal statutes and regulations

Individualized Healthcare Plans for the School Nurse

Covering the full range of nursing interventions, Nursing Interventions Classification (NIC), 6th Edition provides a research-based clinical tool to help in selecting appropriate interventions. It standardizes and defines the knowledge base for nursing practice while effectively communicating the nature of nursing. More than 550 nursing interventions are provided - including 23 NEW labels. As the only comprehensive taxonomy of nursing-sensitive interventions available, this book is ideal for practicing nurses, nursing students, nursing administrators, and faculty seeking to enhance nursing curricula and improve nursing care. More than 550 research-based nursing intervention labels with nearly 13,000 specific activities Definition, list of activities, publication facts line, and background readings provided for each intervention. NIC Interventions Linked to 2012-2014 NANDA-I Diagnoses promotes clinical decision-making. New! Two-color design provides easy readability. 554 research-based nursing intervention labels with nearly 13,000 specific activities. NEW! 23 additional interventions include: Central Venous Access Device Management, Commendation, Healing Touch, Dementia Management: Wandering, Life Skills Enhancement, Diet Staging: Weight Loss Surgery, Stem Cell Infusion and many more. NEW! 133 revised interventions are provided for 49 specialties, including five new specialty core interventions. NEW! Updated list of estimated time and educational level has been expanded to cover every intervention included in the text.

Fast Facts for the School Nurse, Second Edition

Fast Facts for the School Nurse provides quick access to information that busy school nurses need to practice competently and efficiently. Written by a nurse with more than 25 years of school nursing experience, this

consistently organized reference offers straightforward guidelines to a range of daily tasks and nursing responsibilities. It provides clinical protocols for safe management of common childhood illnesses, accidents, and emergencies, along with legal and ethical considerations, documentation, and high-risk areas in school nursing practice. The fourth edition has been substantially revised. Of significance is the first chapter which provides Words of Wisdom from school nurses and self-help guidance. Included also is expanded coverage of mental health issues, gender identity and transgenderism, and drug use. Information on technology in the school health office will also be updated. In addition, the new edition features new information on the COVID-19 pandemic and its lasting influence on school nursing practice. The summary questions at the end of each chapter will provide readers with immediate feedback. Most school nurses are thrown into their positions with little or no experience or orientation to the school setting. Finding appropriate resources is difficult. Fast Facts for the School Nurse provides the concise and practical information needed for immediate school nurse performance and is suitable for both the nurse new to practice and the experienced school nurse. New to This Edition: Guidance in answering difficult questions posed by students, teachers, parents, and administrators. "Words of Wisdom" from school nurse colleagues and self-help suggestions for a healthier you. New chapter dedicated to the National Association of School Nurses' 21st Century Framework for School Nurse Practice™ New chapter on pandemic awareness, readiness, and steps a school nurse must take Expanded chapter on technologies for the school health office Updated information on mental health issues and awareness including depression, anxiety, stress Expanded chapter dealing with gender identify issues including transgender Additional information on use of marijuana and vaping Review questions at the end of each chapter (with answers and rationale) Key Features Addresses the five content components included in the National Certification Examination for School Nurses—health problems and nursing management, health appraisal, health promotion and disease prevention, professional issues, and special health needs Covers guidelines, management protocols, and care plans for childhood disorders, accidents, and emergency situations Includes new information on pandemic readiness and measures, mental health conditions, substance abuse, sexual orientation, and emerging technologies. Provides quick reference for health office set up, recommended immunizations, national health observances, and a handy month-by-month calendar

Fast Facts for the School Nurse, Second Edition

"Essentials of Pediatric Nursing is intended for Pediatric Nursing courses with an integrated pediatric curriculum. It provides a unique concept-based approach and nursing process focus, that helps students go from concept to application by building on previously mastered knowledge from other courses. Organized into four logical units, Kyle: Essentials of Pediatric Nursing covers a broad scope of topics with an emphasis on common issues and pediatric-specific information. In addition, it has a variety of learning features to ensure student retention, such as, Healthy People 2010 boxes, Threaded Case Studies and Comparison Charts highlighting common diseases. Plus, it includes a BONUS CD-ROM and companion website that provide numerous resources for both students and instructors, including video clips of each developmental stage and care of the hospitalized child!

Legal Issues in School Health Services

This fully updated edition spells out what action school personnel should take when faced with specific physical, emotional and behavioral problems. Covering everything from the common cold to trauma, it helps school personnel make decisions that protect student health -- and prevent litigation. Plus, this new third edition offers expanded information on mental health, special education, teen pregnancy, STDs, and more.

Nursing Interventions Classification (NIC)

Praise for the Second Edition: " This resource] will direct school nurses to the answers for many questions and to wiser counsel when a dilemma seems unsolvable. It is authored by a school nurse of publicly acclaimed distinction who brings a lifetime of experience to these pages." --Lucille A. Joel, EdD, RN,

FAAN, Distinguished Professor, School of Nursing Rutgers, The State University of New Jersey This time-tested reference provides quick access to information busy school nurses need to practice competently and efficiently. Written for both new and experienced school nurses, it delivers consistently organized information in bulleted format. The third edition has been substantially revised with expanded coverage of first aid, depression screening, drug use, and adolescent sexuality. Authored by a nurse with over 25 years of school nursing experience, this resource offers clear guidelines to a full range of daily tasks and nursing responsibilities. It provides clinical protocols for safe management of common childhood illnesses, accidents, and emergencies, along with advice on legal and ethical considerations, documentation, and high-risk areas of school nursing practice. Also covered are the delivery of culturally appropriate care, screening tools, wellness strategies, individualized healthcare plans, and childhood obesity. The guide is also useful as a supplemental text for certification exam study. New to the Third Edition: New information on adolescent sexuality and gender identity Expanded coverage of first aid, including when to call 911 Depression screening, immigration laws, ethical dilemmas, and school shootings and gun control Use of medical marijuana, OTC drug use and abuse, opioid addiction and overdose treatment, and vaping Key Features: Addresses the five content components included in the National Certification Examination for School Nurses Covers guidelines, management protocols, and care plans for childhood disorders, accidents, and emergency situations Prioritizes responsibilities with a handy month-by-month task calendar Provides quick reference for health office setup, recommended immunizations, and national health observances Presents a technology chapter with information on reporting, software, and confidentiality issues

Fast Facts for the School Nurse

Produced in cooperation with the National Association of School Nurses, this text includes comprehensive coverage of the multiple facets of school nursing—from the foundations of practice and the roles and functions of a school nurse through episodic and chronic illness and behavioral issues, to legal issues and leading and managing within school settings. Written and edited by school nurses and pediatric experts, it features real-world-tested, best practices based on evidence and experience. There's content here that you won't find in other books, such as health assessments, individualized health plan development, mental health conditions including adolescent depression, contemporary legal issues, and current policy statements essential to school nursing.

Essentials of Pediatric Nursing

The life care plan is a dynamic document that provides an organized plan for the current and future needs of individuals with chronic health care needs. It can serve as a roadmap for the families, caregivers, therapists, physicians, and others involved with the ongoing care of a special needs child. Pediatric Life Care Planning and Case Mana

The New School Health Handbook

Containing detailed daily care guidelines and emergency-response techniques, this second edition includes information on working with a range of students, including those who have HIV infection, rely on ventilators, utilize tube feeding, or require catheterization. Reviewed by experts across the country to ensure accuracy and usability, this hands-on reference helps schools nurses, teachers, parents, school administrators, and health aides provide crucial care and support.

Fast Facts for the School Nurse

A compact, accessible reference that includes coverage of all major pediatric medical and surgical conditions in an alphabetical format. Diagnostic tests and procedures are covered in a separate section, and a comprehensive appendix section rounds out the book.

School Nursing

Select nursing interventions with the book that standardizes nursing language! Nursing Interventions Classification (NIC), 7th Edition provides a research-based clinical tool to help you choose appropriate interventions. It standardizes and defines the knowledge base for nursing practice as it communicates the nature of nursing. More than 550 nursing interventions are described — from general practice to all specialty areas. From an expert author team led by Howard Butcher, this book is an ideal tool for practicing nurses and nursing students, educators seeking to enhance nursing curricula, and nursing administrators seeking to improve patient care. It's the only comprehensive taxonomy of nursing-sensitive interventions available! More than 550 research-based nursing intervention labels are included, along with specific activities used to carry out interventions. Descriptions of each intervention include a definition, a list of activities, a publication facts line, and references. Specialty core interventions are provided for 53 specialties. NEW! 16 NEW interventions are added to this edition, including health coaching, phytotherapy, management of acute pain, and management of chronic pain. UPDATED! 95 interventions have been revised. NEW! Five label name changes are included.

Children and Youth Assisted by Medical Technology in Educational Settings

Delivers the critical information school nurses need for effective practice School Nursing: The Essential Reference provides comprehensive coverage of school nursing—from key foundational principles and best practices for the care and management of students to the future of school nursing practice. Edited and authored by experts in the field, this multidisciplinary reference offers full background on the scope and standards of school nursing, interdisciplinary practices, coordinated school health programs, cultural competency, and laws and ethics. It also provides tools for the school nurse to thrive as an advocate, health educator, and leader. School Nursing: The Essential Reference provides evidence-based clinical protocols for the management of acute and chronic illnesses and issues confronted by the marginalized student. Sexual orientation and gender identity are explored, as are violence toward self and others, emergency and disaster preparedness, and the impact of COVID-19. This guide is useful not only for novice and experienced school nurses, but also for school-nursing students and those preparing for state or national certification exams. Supplementary online resources include more than 100 multiple-choice review questions that can be used by school nurses to test themselves on essential knowledge to prepare for practice, or by instructors in the classroom setting. Key Features: Provides comprehensive coverage of all elements of school nursing practice Highlights best practices for the care and management of students, including the marginalized student Addresses sexual orientation and gender identity, violence toward self and others, emergency, and disaster preparedness Discusses the impact of COVID-19 on school nursing practice and related management

strategies Provides more than 100 multiple-choice review questions in an online supplementary resource
Offers tips for the school nurse to thrive as advocate, health educator, and leader

Mosby's Pediatric Nursing Reference

This edition of "Community Health Nursing: Concepts and Practice" continues to be written with you, the undergraduate nursing student, in mind. It is 'user friendly' with many mini-case studies woven throughout the text in order for you to more easily apply the information with your clients. The text is comprehensive and incorporates the impact of the global health status. We are a small planet with big health problems that impact each person's health and the role of the community health nurse now and in the future. As a nation, we have a new and continuing health agenda through Healthy People 2010 that gives direction to our work. These new goals and objectives are incorporated throughout the text. Finally, the text format is designed to provide you with the comprehensive, globally sensitive information and skills you need to be an effective practitioner with aggregates, groups, and individuals in the community

Nursing Interventions Classification (NIC) - E-Book

The AIDS pandemic threatens to kill millions in the next ten years. No one should be silent about speaking to the issue or reading about the complexity of the problem. Dr. Ramesh Deosarran was courageous in his decision to present his readers with both the historical context of the epidemic, as well as the contemporary possibilities of approaches for the Christian community. Churches have the ability to influence the values and actions of not only the congregations, but also wider segments of the community. In this important work Ramesh acknowledges the need for a clearer roadmap for developing effective HIV prevention ministries that are sensitive to the church's cultural values and norms. A healthy embrace of the contents of this book will enable Christians to avoid the strident moralism that is often the prevailing attitude.

School Nursing: The Essential Reference

Easy-to-use manual supports school administrators in creating sound policy and health promotion. Practical and easy-to-use, this manual is a comprehensive and authoritative resource that healthcare professionals can use to support school administrators in creating sound policy and practice in health promotion and injury prevention.

Community Health Nursing

La quinta edición de la 'Clasificación de Intervenciones de Enfermería (NIC)' presenta un rango completo de intervenciones realizadas por profesionales de enfermería, utilizando un lenguaje normalizado global para describir los tratamientos que realizan estos profesionales. En esta edición hay un total de 542 intervenciones, de las cuales 34 son nuevas, relativas a temas tan relevantes como manejo de desfibriladores, nutrición

infantil, seguridad en el paciente pediátrico o cuidado de las heridas (quemaduras) y 77 han sido revisadas exhaustivamente, proporcionando la información más actualizada en una amplia variedad de intervenciones, que incluye tratamiento con quimioterapia y radioterapia, hipnosis, terapia física y prevención del shock. El formato de cada una de las intervenciones es el mismo que en las ediciones anteriores. Cada intervención tiene una etiqueta, definición, lista de actividades que el profesional de enfermería debería realizar para llevar a cabo esa intervención en el orden lógico en que debería realizarse, y una pequeña lista de lecturas de referencia. Esta herramienta de investigación clínica proporciona las bases del conocimiento para la práctica enfermera, con una selección apropiada de intervenciones para profesionales, estudiantes, administradores, y docentes. A HANDBOOK IN HIV/AIDS COUNSELING

Addresses the health care needs not only of individuals and families, but groups within the community, including population subgroups such as females, the homeless, ethnic groups and more. Learning objectives, case studies and boxed summaries and references are included in this text.

Nursing Interventions Classification (NIC)

Practical and comprehensive, this essential resource helps you plan individualized care for clients in a variety of settings, including acute care, extended care, and home care environments. It features 33 detailed nursing diagnosis care plans and 65 disease/disorder care plans that are keyed to specific expected outcomes and interventions. This book also includes the popular Online Care Planner that allows you to edit and print standardized nursing diagnosis care plans. Offers the most in-depth care plans of any planning book, fostering critical thinking and promoting effective clinical decision-making. 33 separate nursing diagnosis care plans provide detailed interventions with rationales and documentation guidelines for the most common nursing diagnoses. 65 comprehensive care plans serve as a complete reference for the most common disorders in acute care, extended care, and home care settings. Body system organization makes content easy to locate. Nursing/collaborative diagnoses are linked to actions and rationales. Specific points for discharge teaching serve as guidelines for planning client education. A complete discussion of caring for older adult clients and changes that occur with aging helps you understand the unique considerations of caring for this population group. A new care plan format focuses on prioritized nursing interventions, interventions that can be delegated, and documentation criteria, as well as differentiating between independent and collaborative nursing actions. Features 8 new nursing diagnosis care plans on topics such as comfort, confusion, contamination, decision-making, falls/injury, unstable glucose level, risk-prone health behavior, and self-care. Includes 9 new disease/disorder care plans for Abdominal Trauma, Alzheimer's Disease, Asthma, Enteral Nutrition, Intravenous Conscious Sedation, Internal Radiation Therapy (Brachytherapy), Mechanical Ventilation, Parkinson's Disease, and Total Parenteral Nutrition. Evidence-based practice content presents the latest research findings and standards of care. Updated NANDA nursing diagnoses, NIC interventions, and NOC outcomes reflect the latest nursing taxonomies. An open, user-friendly design makes it easy to quickly locate essential information. The companion Evolve website features 71 new narrated 3D

pathophysiology animations that correspond to disorders content in the text.

You'll find about 160 care plans in all, covering acute, community, and home-care settings across the life span. Each plan features... Client assessment database for each medical condition Complete listings of nursing diagnoses organized by priority Diagnostic studies with explanations of the reason for the test and what the results mean Actions and interventions with comprehensive rationales NANDA, NIC, and NOC's most recent guidelines and terminology Evidence-based citations Index of nursing diagnoses and their associated disorders See what students are saying online... Nursing Care Plans. "Best thing I have bought while in Nursing School. Has helped me with all my care plans."--Diana Davison Excellent book "Great book for anyone who is writing care plans All evidence based rationales included Good luck to all in nursing school "--PatDon Prioritized interventions and rationales that I love. This is the BEST care planning book that... "This is the BEST care planning book that I have purchased...and I have purchased several. This one gives you a complete rundown of a condition - pathophysiology, classification, etiology, statistics, glossary of terms, related concerns, labs/diagnostic procedures, patient need categories with symptoms, priorities, goals, diagnoses, actions and interventions AND rationales for each...yes, each This book will not have every disease/condition, but it has a lot. Wonderful tool when you are beginning to construct care plans. I wish I had it earlier. Highly recommend buying both of them together."--C.M.

National Library of Medicine Current Catalog

First multi-year cumulation covers six years: 1965-70.

Clasificación de Intervenciones de Enfermería (NIC)

The book gives guidance and practical advice about working in the community and the specialist role of school nursing. It includes contributions from newly qualified school nurses to provide reflections on their experiences, challenges and successes.

Community Health Nursing

Ulrich & Canale's Nursing Care Planning Guides, 8th Edition Revised Reprint with 2021-2023 NANDA-I® Updates - E-Book

Ulrich & Canale's Nursing Care Planning Guides - E-Book

Master the knowledge and skills you need to succeed in community health nursing! Community/Public Health Nursing, 8th Edition discusses the nurse's role in population health promotion with a unique "upstream" preventive focus and a strong social justice approach, all in a concise, easy-to-read text. It shows how nurses can take an active role in social action and health policy — especially in caring for diverse and vulnerable population groups. This edition integrates the NCSBN Clinical Judgment Measurement Model to help you prepare for the Next Generation NCLEX®. Clinical examples and photo novellas show how nursing concepts apply to the real world. Active Learning boxes test your knowledge of the content you've just read, helping provide clinical application and knowledge retention. UNIQUE! Social justice

approach promotes health for all people, emphasizing society's responsibility to protect all human life and ensure that all people have their basic needs met, such as adequate health protection. UNIQUE! Veterans' Health chapter presents situations and considerations unique to the care of military veterans. Genetics in Public Health boxes reflect increasing scientific evidence supporting the health benefits of using genetic tests and family health history to guide public health interventions. UNIQUE! "Upstream" focus addresses contributing factors of poor health and promotes community efforts to address potential health problems before they occur. Case studies present the theory, concepts, and application of the nursing process in practical and manageable examples. UNIQUE! Photo novellas — stories in photograph form — show real-life clinical scenarios and highlight the application of important community/public health nursing roles. Consistent pedagogy at the beginning of each chapter includes learning objectives, key terms and chapter outlines to help you locate important information and focus your study time. Clinical Examples present snippets of real-life client situations. Theoretical frameworks common to nursing and public health aid in the application of familiar and new theory bases to problems and challenges in the community. Research Highlights introduce you to the growing amount of community/public health nursing research literature. Ethical Insights boxes present situations of ethical dilemmas or considerations pertinent to select chapter topics. NEW! Online case studies for the Next Generation NCLEX® Examination (NGN) provide you with the necessary tools to prepare for the NGN. NEW! Overview of the NCSBN Clinical Judgment Measurement Model provides information on the latest recommendations to promote evidence-based client decisions. NEW! Healthy People 2030 boxes highlight the most current national health care goals and objectives throughout the text.

The Cumulative Book Index

Learn the ins and outs of health promotion and disease prevention in Canada with Edelman and Kudzma's Canadian Health Promotion Throughout the Life Span. This all-new, comprehensive text grounds you in the Canadian health objectives for promotion and prevention which aims to improve the health of the entire population and to reduce health inequities among population groups. Among the text's chapters you'll find extensive coverage of growth and development throughout the life span — including coverage of the normal aspects, the unique problems, and the health promotion needs that are found in each age and stage of development. Separate chapters discuss each population group — the individual, the family, and the community — and highlight the unique aspects of caring for each of these groups. In all, this comprehensive and culturally relevant text provides all the tools needed to stay up on the latest research and topics in Canadian health promotion.

Nursing Care Plans

Master the essentials of health promotion in community and public health nursing! Foundations for Population Health in Community/Public Health Nursing, 6th Edition provides clear, concise coverage of the nurse's role in preventing disease, promoting health, and providing health education in community settings. Case studies and critical thinking activities make it easier to apply concepts to community nursing practice. New to this edition are Healthy People 2030 guidelines and coverage of the latest issues, trends, and approaches. Written by well-known nursing educators Marcia Stanhope and Jeanette Lancaster, this streamlined text covers the fundamentals of designing effective nursing strategies for vulnerable and special populations. Focus on health promotion throughout the text emphasizes initiatives, strategies, and interventions that promote the health of the community. QSEN boxes illustrate how quality and safety goals, competencies, objectives, knowledge, skills, and attitudes can be applied in nursing practice in the community. Levels of Prevention boxes identify specific nursing interventions at the primary, secondary, and tertiary levels, reinforcing the concept of prevention as it relates to community and public health care. Applying Content to Practice boxes highlight how chapter content is applied to nursing practice in the community. Practice Application scenarios present practice situations with questions and answers to help you apply concepts to community practice. Genomics coverage provides a history of genetics and genomics and how they impact public/community health nursing care. Coverage of ongoing health care reform issues

includes the impact of the Patient Protection and Affordable Care Act of 2010 (ACA) on public health nursing. Evidence-Based Practice boxes highlight current research findings, their application to practice, and how community/public health nurses can apply the study results. NEW! COVID-19 pandemic information has been added. NEW! Healthy People 2030 objectives are highlighted throughout the book, addressing the health priorities and emerging health issues expected in the next decade. NEW! Updated content and figures reflect the most current data, issues, trends, and practices. NEW! Expanded Check Your Practice boxes use Clinical Judgment (Next Generation NCLEX®) steps to guide your thinking about practice scenarios.

Current Catalog

Written by nurse practitioners for nurse practitioners, this one-of-a-kind resource provides the expert guidance you need to provide comprehensive primary care to children with special needs and their families. It addresses specific conditions that require alterations in standard primary care and offers practical advice on managing the major issues common to children with chronic conditions. A consistent format makes it easy to locate essential information on each condition. Plus, valuable resources help you manage the issues and gaps in health care coverage that may hinder quality care. This is the only book authored by Nurse Practitioners that focuses on managing the primary health care needs of children with chronic conditions. More than 60 expert contributors provide the most current information available on specific conditions. Comprehensive summary boxes at the end of all chronic conditions chapters provide at-a-glance access to key information. Resource lists at the end of each chronic condition chapter direct you to helpful websites, national organizations, and additional sources of information that you can share with parents and families. Updated references ensure you have access to the most current, evidence-based coverage of the latest research findings and management protocols. Four new chapters — Celiac Disease, Eating Disorders, Muscular Dystrophy, and Obesity — keep you up to date with the latest developments in treating these conditions. Autism content is updated with the latest research on autism spectrum disorders, including current methods of evaluation, identification, and management. Coverage of systems of care features new information on how to help families obtain high-quality and cost-effective coordinated services within our complex health care system. Easy-to-find boxes in the chronic conditions chapters summarize important information on treatment, associated problems, clinical manifestations, and differential diagnosis.
